

This website is very useful for creating and sharing any map that you come up with

Go to www.wayfaring.com

Create an account and explore what is possible

Creating a Map

1 Name your map; give it a name that describes your map

Name Your Map
Name (req)
Best places to eat

2 Give the location; choose a location not too specific so it gives you mapping room

U.S. Locations
and click 'jump'
Providence, RI Jump

Adding a Waypoint – a specific point on the map

1 Name it and then type in an address

Position
Address [advanced]
708 Hope St. Providence,
Submit

2 Tag it or give it keywords

Suggested tags:
biking climbing directions hiking
running touring training walking

3 Give it a full description so people can know what it is

Description [preview]
Lists all the Libraries in Alexandria

4 Edit the view of the address
Example: From 103 Main St. to 103-105 Main St.

Note: Make as many as needed

Adding a Note

1 Type in the address or click on the map where the note should be placed

Where should this note be placed?
Address [advanced]
Submit Address

2 Tell what the note is for and how it is to be displayed. This is great for problem or warning areas

What does this note say?
Label
Problem
Text (opt) [preview]
Watch out for the fork in the road
 Display note in map detail area

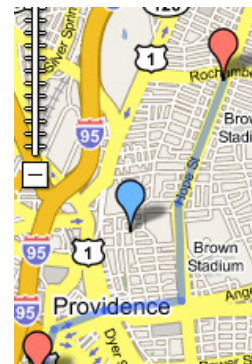

Note: Make as many as needed

Adding a Route

You have to know your route ahead of time. **Just click** where you want the turns to be. It will draw the line for you

Add a route
Draw a route on the map by clicking a sequence of points with the mouse.
Route Label (required)
To get to central Library branch
Length: 2.34 miles

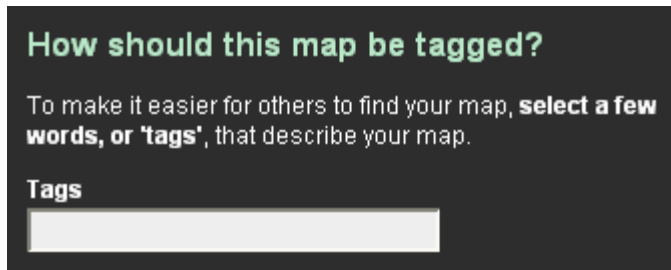

On the left is a sample of a map with a route on it

When finished click **Save**

Note: If you make a mistake hit the Undo Last Button

Extras

Tags are very important. They allow people to find the correct map when searching by keywords. Make sure you use enough and use synonyms like, restaurant and cafe

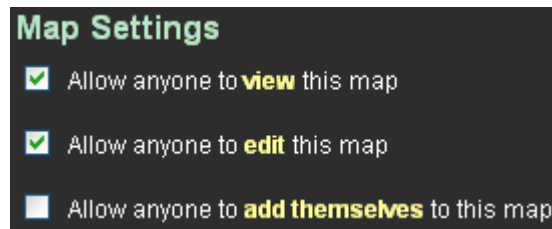

Popular tags:

animation arkansas art australia bar bars beach beer bestof bike brooklyn bus

To understand tags look at the size of the word; the larger the word the more people have used it for their descriptions

These settings are great if you want to change the level of outside contribution

If you are doing this for a company you might want to really consider these well

Connect

Collaborate with others to build new maps

Share

Share your maps with friends, family, and other creatures.

Don't forget when finished to send your map to people. If you made a mistake you can always edit it

Also if you have a blog or webpage you can add it to it by following their directions

Wayfaring Greasemonkey Script

WARNING: this is a very experimental part of Wayfaring, and unless you are already familiar, we would prefer you just hit that 'ol back button and click on the maps.

Their words
