Change your homepage

Home page:

Use current Use default Use blank

Open **Internet Options**, put in new web address

Sound

Adjust sound setting to configure anything audio

Playback Recording Sounds

Select a playback device below to modify

Speakers SoundMAX Integrated Digital HD Audio Working

Speakers: [Volume slider] 100 [Mute] Balance

Raise Volume Disable all sound

Double click for more options

Mouse

Change settings such as double clicking speed and motion pointers

Double-click speed

Double-click the folder to test your setting. If the folder does not open or close, try using a slower setting.

Speed: Slow [Slider] Fast

Motion

Select a pointer speed:

Slow [Slider] Fast

Enhance pointer precision

Energy Options

Choose a setting that fits your type of energy use

Power saver Energy savings: ●●●●●● Performance: ●●

High performance Energy savings: ●● Performance: ●●●●●●

Change plan settings

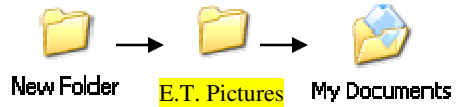

You can create your own settings. Also don't forget to check the other options like password protection and others

Creating Folders

A Folder helps you stay organized. **Right click** in any blank space on the screen and point to **new** and choose **folder**

When finished you can leave it where it is or drag it into another file like My Documents

Once a folder is created, it is named New Folder

To rename a folder

Right click on the folder and choose **rename**

Type in the new name

Images

- Once you find an image
- Point to a picture
 - **Right click**, a menu will appear
 - Choose **save picture as...**
 - Choose a destination to save it to a folder like **My Documents**

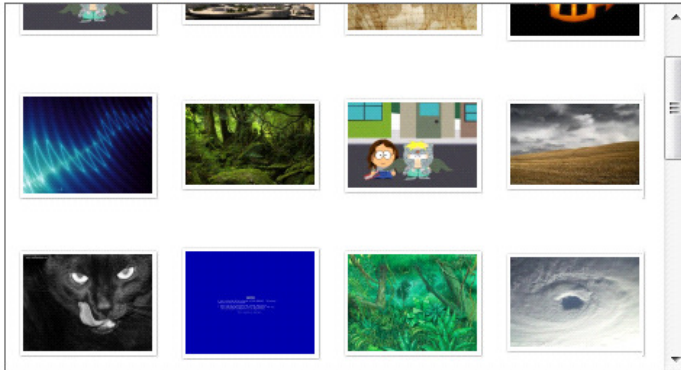

Display Options of Personalize Options

Change the appearance of your desktop, such as background, screensaver, colors, font sizes, and screen resolution

Desktop Backgrounds

Change the background to something better

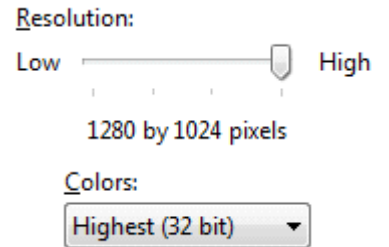

Use options to make the image fit better

Use Browse to find and use your own images as backgrounds

Display Settings

Move the slider bar for resolution
To change the size of how things appear on your screen bar

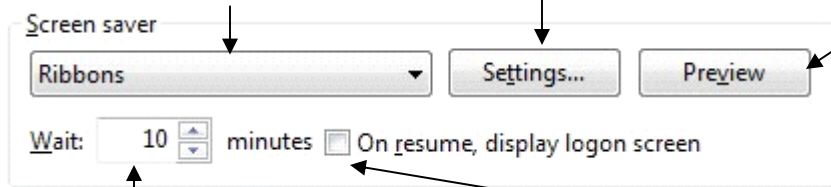

Change the amount of colors shown

Screensaver

Change what appears on your screen when you leave it alone for a while

Change the type of screensaver All the options for each screensaver

Change the amount of minutes till the screensaver turns on

To add a layer of security check the box so that anyone trying to get into the computer will have to use a password

Try out the screensaver to see if you like it. Remember not to move the mouse while you are watching it

Window Color and Appearance

Fine tune the color and style of your windows

Allows you to see partially through the window. Some people prefer not to have this on

Enable transparency

Change the color of windows
